DURA-CON®

CORROSION RESISTANT FASTENERS

DURA-CON® Corrosion Resistant Fasteners are the first fasteners specifically tested for use in solar racking materials.

DURA-CON® Fasteners show resistance to Environmental Corrosion equal to that of stainless steel fasteners when tested in aluminum solar panel racking.

Mounting Hardware

EJOT®

High quality, secure,
easy-to-install fastening
systems for rooftop solar
installations.

S-5!®

The Right Way!

Sustainable roof systems
without compromising
the roof's warranty.

SOLAR CONNECTIONS INTERNATIONAL

THE FUTURE OF SOLAR ATTACHMENTS

Rail-less or railed systems for

- Asphalt Shingle
- Corrugated
- R-Panel
- Standing Seam

ABOUT

Family owned and operated since 1975, Mudge Fasteners provides a large selection of fasteners, fastener tools and adhesives to customers in a broad range of industries. Mudge is a fastener source for businesses both small and large; locally, nationally and internationally.

Mudge Fasteners was the first fastener supplier with a devoted solar industry program, launching the Solar Fastener Expert brand in 2008. Today, we count many leaders of the industry amongst our customers, from large scale EPCMs to residential installers. Since we started, Mudge has been committed to sharing our extensive product knowledge with the solar community, in order to help our customers constantly improve their products, processes, performance and profits.
